

EMBRACE TEXAS & CONFIDE RESEARCH

Did you know that this year alone, over 300 teens will “age-out” of foster care in North Texas? This is a shocking statistic, that led some of our Dallas team members to ask, “how can we help?”. While not everyone has the ability to open their homes to those in need, our team found a way to help through Embrace Texas.

Embrace Texas proudly serves foster and adoptive families licensed with any child placing agency, at-risk children and their caregivers, kinship care providers, and foster care alumni. While their primary focus is Collin County, they serve families across North Texas. A majority of the clients are low-income children, families, and their caregivers. Most of the services and programs are provided at no cost, low-cost, or with the possibility of scholarship based on need.

After reaching out to Executive Director, Denise Kendrick, our team made a list and took a day to go shopping for “First Apartment Kits”. First Apartment Kits are given free of charge to those who will be starting out on their own after aging out of foster care. Things like pillows, towels, and trashcans are all things we can take for granted, and it was our pleasure to be able to provide some of those things to help the next generation start off on the right foot.

If you are looking for ways to help, there are many ways that Embrace Texas could use your time, ideas, and financial contributions. To find out more, please visit their website at EmbraceTexas.org.
