

# CONFIDE CARES

## • World Vision •

Confide recently supported World Vision by participating in their Global 6K for water. A few members of our team put on their tennis shoes and walked/ran to help raise awareness for those around the world who don't have the luxury of clean water in their homes.

World Vision has a presence in nearly 100 countries that enables them to quickly provide immediate support in all types of disasters and humanitarian crises. They are committed to long-term support, staying to help children, families, and communities recover and rebuild. In 2021 alone they responded to 72 disasters and humanitarian emergencies in 52 countries, as well as the Covid-19 pandemic in over 70 countries.
